2021 - 2022

**Hon'ble Prof. Dr. Vishwanath D. Karad**  
 Founder & President  
 MIT Group of Institutions & MIT ADT University

MIT Art Design and Tecnology University (MIT ADT University), is established by the renowned MIT Group of Institutions. It is UGC recognised multi disciplinary University located on the 125 acres of campus at Vishwaraj baug, Loni Kalbhor. The University campus is an embodiment of peace, serenity and tranquillity; aesthetically erected on the banks of Mula-Mutha river with its architecture ideation inspired from matrix of Saptarishi, Saptarang and Saptaswar.

## ABOUT SCHOOL

MIT School of Fine Arts and Applied Arts aims at providing the highest standard of art and design education in fine arts and applied arts. It offers an incredible array of academic programs, a diverse, committed, accessible faculty, sophisticated facilities, and an unusual emphasis on experiential learning and project-based learning. Fine Art graduates gain knowledge to develop practical skills helping them exhibit their work. Applied artists develop conceptual skills which evolve into advertising, with specializations in UI-UX, Branding and Advertising, Photography, Typography, and Illustration.

## VISION

Promotion of creative arts through innovation and research to meet global standards.

## MISSION

- Create a world-class innovative artist, who can lead the creative industry at global standards
- Collaborations with the Industry to bridge the gap between Industry and Academics.
- To produce creative designers for effective communication to serve the society

## PROGRAMS OFFERED

### APPLIED ARTS – Visualize the future

A foundation program that prepares you to understand the conceptual, creative process underlying design disciplines is followed by courses that balances visual exploration, theory, applications, and technical design skills. We help you find solutions in branding, copywriting, Graphic design, Motion graphics, Interaction design, packaging, 3D design, Web design, Information design, Ideation, Innovation and Visualization in design.

### SCULPTURE – Shape the future

The Sculpture programme establishes a framework that encompasses the material, historical and theoretical conditions of sculpture where students are supported to develop their own practice. Our purpose – built studios serve as both working and exhibition spaces. We believe in a very open approach to what is considered sculpture within the field of contemporary you to work at the margins of discipline as well as at the core.

### PAINTING – Repaint the world

The range of innovative programs offered in our School of Fine Arts and Applied Arts gives you a panoramic perspective opening the floodgates for new methods of visual expression. Here you can create fine art using centuries – old methods or by pushing the boundaries of digital creativity. With well equipped and modern studios, you have numerous opportunities to exhibit your work on and off campus.

### ART THERAPY – Art that heals

Art therapy is an integrative mental health and human services profession that enriches the lives of individuals, families, and communities through active art-making, creative process, applied psychological theory and human experience within a relationship. The students receive training from the experienced faculties from the United States of America (USA), India and guest lecturers from many other parts of the world.
